## PERSONAL PROFILE

I am a software developer with experience in multiple languages and development methodologies. I excel in full-stack development and have a track record of delivering quality projects on-time. I am passionate about staying current with industry trends and am eager to learn new technologies. I work well independently or in a team environment. Furthermore, I want to work with a company that values innovation and creativity.

## WORK EXPERIENCE

### Junior Software Developer

#### Northcoders

Jul 2022 – Nov 2022

- Version Control (Git)
- Test-driven development (TDD)
- Code Reviews and Collaborative Development
- Deployment and Hosting (Heroku, Netlify)
- Pair Programming and Agile Methodologies
- Object-Oriented Programming (OOP)
- Database Management (SQL, MongoDB)
- Error Handling and Debugging
- Continuous Integration and Continuous Deployment (CI/CD)
- Responsive Web Design and CSS Frameworks

At Northcoders, I embarked on a transformative journey into the world of coding and software development. Through their designed coding bootcamp, I was equipped with the essential skills to become a proficient programmer. I learned industry-relevant programming languages such as JavaScript, Python, and React, gaining a solid foundation in full-stack development. The curriculum also covered essential concepts like data structures, algorithms, version control, and best coding practices. Beyond technical skills, I fostered problem-solving abilities, teamwork, and effective communication within a supportive and collaborative learning environment. Northcoders emphasized real-world projects and practical experience, enabling me to enter the tech industry confidently and pursue a rewarding career as a skilled software developer.
