PERSONAL PROFILE

I am a software developer with experience in multiple languages and development methodologies, excelling in full-stack development and have a track record of delivering quality projects on-time. I love keeping up with the latest tech trends and learning new things. Furthermore, I can work by myself or with a team, and I'm looking for a company that values new ideas and creative thinking.

PROFESSIONAL EXPERIENCE

Junior Software Developer
Northcoders
Jul 2022 – Nov 2022

- Version Control (Git)
- Test-driven development (TDD)
- Code Reviews and Collaborative Development
- Deployment and Hosting (Heroku, Netlify)
- Pair Programming
- Object-Oriented Programming (OOP)
- Database Management (SQL, MongoDB)
- Responsive Web Design and CSS Frameworks

At Northcoders, I embarked on a journey into the world of coding and software development. Through their designed coding bootcamp, I was equipped with the essential skills to become a proficient programmer. I learned industry-relevant programming languages such as JavaScript, Python, and React, gaining a solid foundation in full-stack development. The curriculum also covered essential concepts like data structures, version control, and best coding practices. Beyond technical skills, I fostered problem-solving abilities, teamwork, and effective communication within a supportive and collaborative learning environment. Northcoders emphasized real-world projects and practical experience, enabling me to enter the tech industry confidently and pursue a rewarding career as a skilled software developer.

GOOGLE WEB APP

Data Lead Developer
Cheshire Property Advisers
Sept 2020 – Current

At our sales company, I used HTML, CSS, and JavaScript to build and maintain the company's website. I also used Python for data automation and created interactive dashboards. I presented Excel/Google Sheets reports to directors, worked on projects to speed up workflows, and automated tasks using Google Scripts for Sheets and Doc. Additionally, I utilised Playwright for web scraping, providing data to empower our sales staff in making informed calls.

HRIS Systems Analyst
LTE Group (The Manchester College)
Jul 2019 – Jul 2020

Managed iTrent's structure, including Units, Posts, and Positions, identifying and correcting systematic faults/errors. Utilised SAP Business Objects to create reports, minimising HR team typo errors and setting up timely reminders and managed various systems like TOPdesk, Supportworks, iLearn, & iTrent.

HR Project Systems Adviser
Salix Homes
Mar 2019 – July 2019
6 months FTC

Maintaining and enhancing systems, controls, and processes while diligently documenting them in alignment with company policies and procedures. A notable achievement includes the creation of streamlined chain processes for new employees' onboarding, seamlessly integrating them with Workflow to establish triggers and other interconnected processes.

HR Adviser
Manchester Airport Group
Jan 2019 – Mar 2019
Interim

Ensured recruitment practices aligned with legislation and MAG's core values, overseeing advertising, interviews, and inductions. Conducted comprehensive reviews of Return to Work and Exit Interviews, monitoring and analysing trends for continuous improvement.

People Operations Administrator
BUPA
May 2018 – Jan 2019

I proficiently leveraged the Workday HR system to streamline daily operations. I diligently oversaw ServiceNow tickets, guaranteeing compliance with SLA guidelines. Moreover, I offered invaluable assistance to managers, providing expertise in data input, system navigation, and record-keeping processes.
